- Enhanced user experience with 40% faster page loads by optimizing data fetching using React Query.
- Elevated satisfaction by 15% with user-friendly interfaces designed in collaboration with the team, earning positive feedback.

INTEREST

Reading • Writing
Gym • Travelling
Sport • Volleyball

WORK EXPERIENCE

COMPUP (YC S22)-BANGALORE, INDIA

SDE-1 (Frontend Developer) 04/22 - Present

COMPUP | React, CSS, TypeScript, React-Query, React-Context, Formik, Storybook, Lerna Workspace, and Echarts. Mar 2023 | **Web**

- Developed and implemented a robust UI component library within a Monorepo architecture, resulting in a 40% reduction in development time and ensuring consistent branding across all products.
- Improved efficiency by implementing Storybook for UI component testing, reducing bug resolution time by 40%.
- showcasing my proficiency in frontend development. Additionally, I optimized data fetching using React Query, ensuring consistent branding across all products and enhancing overall user experience.

BENCHMARK (REAL-TIME BENCHMARKS) | React js, TypeScript, React-Query, CSS, yarn workspaces, JavaScript, yup Dec 2022 | **Web**

- Utilized React Hooks and Context API to optimize state management, ensuring a responsive user interface with seamless interactions, enhancing overall user experience
- Managed a vast data set of 100,000+ company records, showcasing expertise in scalable data handling for optimal application performance.
- Demonstrated expertise in optimizing state management through the adept use of React Hooks and Context API, resulting in a highly responsive user interface with fluid interactions. This meticulous approach significantly elevated the overall user experience.

HIRESURE DASHBOARD UPGRADE | React js, TypeScript, React-Query, CSS, yarn workspaces, JavaScript, yup, Apex chart Aug 2022 | **Web**

- Revamped Hiresure's dashboard, improving functionality and UX with cutting-edge web tech.
- Enhanced data presentation and visualization for effortless insights, empowering HR and compensation professionals to make informed decisions with confidence.
- data presentation and visualization, facilitating effortless insights and informed decision-making.

HASHSTUDIOZ - NOIDA, INDIA

Intern Frontend Developer (01/22 - 03/2022)

- I specialized in using React.js to address JavaScript bugs and revamp CSS in various projects. This involved enhancing functionality, fixing bugs, and optimizing visual elements for a seamless user experience.

PERSONAL PROJECTS

PROMPTOPIA | Next.js, Tailwind CSS, NextAuth.js, mongodb Sep 2023 | **GitHub**, **Live**

- Developed "Promptopia," a user-centric project with Google authentication for direct login, intuitive prompt management (creation, editing, deletion), and robust MongoDB data storage. Prioritized aesthetic and user-friendly UI design.
- Implemented Google authentication for direct login and intuitive prompt management, prioritizing aesthetic design and providing a seamless user experience.
- Pioneered the creation of "Promptopia," a user-centric project featuring seamless Google authentication for direct login, streamlined prompt management (creation, editing, deletion), and robust MongoDB data storage. Emphasized a meticulous focus on aesthetic and user-friendly UI design, ensuring an engaging user experience.
